JOSE SANCHEZ

Shopify & Front-end Developer

Táchira, Venezuela (Remote) · +58-424-7475773 · devjoseasanchez@gmail.com

CAREER SUMMARY

Shopify and front-end developer with hands-on experience delivering custom theme work for 20+ stores through subcontracted partnerships with agencies and other developers. Specialized in advanced Liquid development, conversion-focused (CRO) landing pages, and complex Shopify data structures such as Metaobjects and Metafields. Proven track record on high-stakes technical work including theme migrations, subscription migrations, discount logic, and third-party integrations. Comfortable owning implementations end to end and turning design and business requirements into fast, reliable e-commerce solutions.

WORK EXPERIENCE

Freelance Shopify & Front-end Developer (Subcontracted) | Sep 2024 – Present

- Delivered custom development across 20+ Shopify stores under subcontracted agreements with agencies and lead developers, acting as the technical implementation specialist on client-facing projects.
- Built conversion-optimized (CRO) landing pages and product pages, focusing on layout, performance, and persuasive structure to improve conversion rates.
- Executed theme migrations (legacy themes to Online Store 2.0) and subscription migrations, preserving data integrity and customer records throughout the process.
- Implemented complex discount logic, bespoke theme sections, and dynamic content powered by Metaobjects and Metafields.
- Integrated Shopify stores with external sales channels and CRMs, including a delivery super app integration where orders sync automatically between Shopify, the app, and the CRM.
- Integrated third-party platforms and tools including GoHighLevel and Lovable into client workflows and marketing funnels.
- Managed Shopify Admin configuration end to end and optimized site architecture and web performance for responsive, fast-loading storefronts.

Web Developer (Contract) | mbtek · Mar 2026 – Apr 2026

- Completed a focused contract building and refining front-end features and landing pages within the company's web stack.
- Worked on implementations and interface improvements, collaborating with the team to ship under a defined timeline.

Web Development Specialist | Aug 2025 – Oct 2025

- Focused on front-end development for landing pages and service portals, integrating dynamic forms and interactive interfaces with JavaScript and modern CSS frameworks.
- Collaborated on the technical deployment of multiple e-commerce projects, ensuring cross-browser compatibility.

RELEVANT PROJECTS

Shopify × Delivery Super App × CRM Integration — Connected a Shopify store to a delivery super app and a CRM so the full catalog can be ordered inside the app, with orders flowing automatically between Shopify, the app, and the CRM, with no manual data entry in between.

Service Tracking Platform for an Auto Lubrication Shop — Built the public website and admin panel for Punto Fijo Cars Service: customers look up their service history by license plate and see when their next oil change is due, calculated automatically. Staff register vehicles and services and print QR codes and PDF service reports. Mobile-first responsive design with light and dark modes. Stack: HTML, CSS, JavaScript, Supabase (database, authentication, row-level security), Vercel.

CRO Landing Pages — Designed and developed conversion-focused landing pages with optimized layouts, fast load times, and integrated lead-capture forms.

Shopify Theme & Subscription Migrations — Migrated stores between themes and subscription setups while preserving data and minimizing downtime.

Custom Shopify E-commerce — Built and customized themes with a focus on modularity and merchant ease of use, using Metaobjects to display complex product information and brand stories.

Professional Web Portals — Developed high-performance websites for medical and educational clients with a strong UI/UX focus.

TECHNICAL SKILLS

- **Shopify:** Liquid (Advanced), Online Store 2.0, Shopify Admin, Metaobjects & Metafields, Shopify APIs, discount configuration, theme & subscription migrations, sales channel and CRM integrations.
- **Front-end:** HTML, CSS, JavaScript, React.js, Bootstrap, Tailwind CSS, responsive design, web performance optimization.
- **Back-end (Basic):** Node.js, SQL / MySQL database management, Supabase (PostgreSQL, authentication, row-level security).
- **Tools & Platforms:** GoHighLevel, Lovable, Vercel, Git / version control.
- **Strengths:** CRO implementation, code structuring & architecture, self-learning, teamwork and clear communication.

EDUCATION

- **Computer Engineering — UPTAIET** (Currently studying)
- High School Diploma — 2023
- English — Basic
